Monthly Cost Estimate - staged funnel

Generated 2026-06-17 - 2,441 prospects, 241 continue - hybrid Sonnet + Haiku

Assumptions

Stage 1 - ALL 2,441 prospects: LinkedIn paste parsing + AI analysis + connection requests (3 drafts).
Stage 2 - only 241 prospects continue to: relationship (3) + one meeting length (3) + follow-up (5 steps).
Model: Haiku 4.5 for LinkedIn parsing; Sonnet 4.6 for analysis + all message generation. 3 variations per engine. AI fit-scoring removed.
Pricing: Sonnet $3 / $15 per 1M tokens; Haiku $1 / $5 per 1M. Estimates from prompt sizes; caching not applied (conservative).

Stage 1 - every prospect (x 2,441)

Call (model)	Input	Output	Cost each
LinkedIn parse [Haiku]	6,000	2,000	$0.0160
AI Analysis [Sonnet]	1,650	700	$0.0155
Connection x3 [Sonnet]	2,550	360	$0.0131
Per prospect (Stage 1)	**10,200**	**3,060**	**$0.0445**

Stage 1 monthly: $0.0445 x 2,441 = $108.62

Stage 2 - the 241 who continue (x 241)

Call (model)	Input	Output	Cost each
Relationship x3 [Sonnet]	2,650	540	$0.0161
Meeting x3 [Sonnet]	2,750	780	$0.0200
Follow-up (5 steps) [Sonnet]	2,800	1,400	$0.0294
Per prospect (Stage 2 extra)	**8,200**	**2,720**	**$0.0654**

Stage 2 monthly: $0.0654 x 241 = $15.76

Estimated monthly total

$124.39 / month

($1,492.63 / year - about 35 million tokens / month)

Summary

Stage	Prospects	Monthly
1. Parse + analysis + connection (all)	2,441	$108.62
2. Relationship + meeting + follow-up (continue)	241	$15.76
TOTAL		**$124.39**

Estimate only. Real per-call usage is recorded in the app's usage table (GET /api/usage); rebuild from actuals after a real batch. Web-search company research is NOT included here (it was not part of this funnel) - add it only for prospects where you run it.
